

Squash has been going well this last year with interclub and superchamp's teams doing well this year. Both men's b and c grade superchamp's teams made national finals this year with both teams finishing runner-up.

Also the club fielded both a men's and women's team in the Cousin and Mitchell cup competition this year, with this being the first year we have had a women's team in this. Both teams did well with women's finishing 5th and men's winning the plate.

The annual Calcutta was held again with Gerrad Whittaker taking it out this year. This year had record entries and was well contested with the club making a good profit from it.

However, a declining in the number of squash players in the last year is a concern and with a few new competitors coming in next year we hope to turn this around.

Many thanks to the committee and everyone that has helped out in the last year.

Thanks,

Steve Oxenham.
