

## Squash Chairpersons Report 2019

Another year is over and has been a good one for squash.

Membership has slowly been declining so the committee started a Thursday night league. This was organised by Mike Martin and was successful in getting new and old players at the club playing on a Thursday. Thank you Mike for organising and running this.

Interclub was good this year with good participation levels. A couple of teams winning their divisions.

Finn Trimble has done a great job running our junior programme over the winter and was well received by all the junior players.

Brian Barnett is now running a successful junior programme with also a newspaper article running. This will hopefully encourage junior players to take the sport up, these players are the future of the club.

We have some maintenance to do in the club with new lights going up in February.

Squash faces a challenge I've the next few years to try and attract more players. Squash players tend to drop away from the game as they get older, with only few being able to carry on to an older age.

I'd like to thank my committee over the last year for all the help.

Thank you,
